Our establishment pays a lot of attention to the environmentally friendly practices that it has put in place and that it is committed to continuing. :

- Waste separation
- Waste reduction

- Production of hot water with solar panels for sanitary blocks
- Avoid dangerous products
- Close control of water/electricity use
- Savings on water/electricity use
- Energy efficient equipment
- Purchase of Ecolabel products for cleaning and maintenance
- Informing and raising awareness of our staff and our guests
- Knowledge of the local environment
- Respect for nature and the landscape
- Respect for non-smokers
- Sanctioning noise nuisance
- Integration of architecture and landscape
- Putting local products first
- Education and environmental awareness for children.

Environmental education

- **Employees:** awareness of the choice of suppliers, the composition of products, energy savings.
- **Children:** educational workshop around the farm and the vegetable garden.
- **Adults:** we remind you of a few rules to follow in individual and collective sanitary facilities:
 - Remember to turn off the light
 - Have a reasoned use of water (shower/tap)
 - Remember to close doors and windows when using the heating
 - Do not throw in the toilet: wipes, sanitary napkins, tampons, etc. These, even biodegradable, clog the pipes.

Noise pollution

In a naturist environment, the absence of noise is obvious. Here are some examples :

Pay attention to the volume of your radio or television, to the slamming of doors, to only operate your air conditioners during siesta (from 2 pm. to 4 pm) or at night, to encourage your children in the morning to go to the amusement park so as not to wake everyone up, be discreet when using your cell phone and turn it off during shows. In general, to consider the estate as a space of calm and rest. In this context, the leisure park is at your disposal for activities and games. For our part, we are committed to finishing our night entertainment at 11 pm. except during special festivities (eg: 21/06, 14/07, 21/07 and 15/08)

Respect for others, quality of life

- **Smokers:** you are in a forest environment extremely vulnerable to fire, be sure to throw your cigarette butts in the ashtrays and not on the ground.
- **Papers:** the smaller they are, the more numerous they are. Please dispose of chewing gum, candy or other packaging in the trash.
- **Garbage rooms:** waste is sorted and several containers are available for this purpose (glass, paper, packaging, etc.), next to entrance B1 and in the B2 car park. So as not to disturb other guests, glass objects must be thrown away after 9.30 a.m. and before 8 p.m. Please place them carefully and do not throw them overboard in containers that are not already filled. These premises are cleaned daily, we thank you for respecting the work of our team for your well-being and theirs. Respecting this place is also a reflection of the behavior of a good citizen.

A composter is at your disposal on the farm next to the vegetable garden, do not throw away the plastic bags containing your peelings. We remind you that the small bins installed on the estate and in the toilets are exclusively intended for small waste, under no circumstances should you deposit your household waste there.

Naturismus in Bélézy

"Naturism is a way of life in harmony with nature, that is expressed by a collective nudity, the purpose is to encourage the respect for itself, for the others and for the environment".

1. The keystone of naturism, integrated in its own definition, the way it was adopted at the international congress of the naturist federation of 1974, and made official since then, is a full time behaviour to which every person is committed.
2. Living in the Domain of Bélézy, means therefore, being committed to practice nudity to encourage others to cause others practice it (family, invited guests who are under your responsibility).
3. No exception is admitted other than special climate conditions, or temporary physical impossibility.
4. It goes without saying that this constant practice of nudity is inseparable from all the benefits that can be expected:
 - self-respect, respect for others for lack of any provocation. Naturism aimed at simplicity with modesty and not with exhibitionism.
 - respect for the environment and places through good behavior, mutual help, attention to others and cleanliness.
5. It belongs to the Domain to organize and to let respect this exercise, helped in this perspective by the naturist club of Bélézy Provence (CNBP) that represents all Béléziens. Any group or individual who doesn't respect this way of life or the domain's regulations will have to leave the area immediately.
